6/3/02 A01-05-002 California Water Service Company, a corporation, for an order authorizing it to increase rates charged for water service in each of its operating districts to recover increased operating expenditures at its general office.

Summary: On May 31, 2002, William Bagley of Nossaman, Guthner, Knox & Elliott, attorneys for California Water Service Company (CWS), met with Cmmr. Brown in San Francisco. Written material (attached to the notice) was used. Bagley presented concerns regarding the proposed decision. Bagley urged the Commission not set a precedent that would prevent a water utility from seeking rate relief for increased general office expense through an application outside the 3-year rate case plan cycle. Bagley urged the Commission to support an alternate that would approve a settlement proposed by CWS and Aglet Consumer Alliance

6/4/02 A00-06-023 Southern California Gas Company, regarding Year Six (1999-2000) under its experimental Gas Cost Incentive Mechanism and related gas supply matters.

Summary: On May 30, Judy Peck, Sempra Utilities Regulatory Relations Manager, spoke by telephone with Belinda Gatti, advisor to Cmmr. Brown. Jim Harrigan, Vice President of Gas Acquisition of Southern California Gas Company, also participated in the communication. Peck stated that any investigation that the Commission initiated should be broad enough to consider all market forces taking place during the period of price spikes in the California natural gas market. Harrigan cited a number of factors that could have contributed to the high natural gas prices.

Summary: On May 30, 2002, Bruce Foster, Vice President of Regulatory Operations, Southern California Edison Company, contacted Lynne McGhee, advisor to Cmmr. Duque, by telephone. Foster stated that any investigation issued in conjunction with the Gas Cost Incentive Mechanism decision could be limited to transportation, hub services, and activities affecting the Southern California gas market. Foster stated also that increases in the price of gas at the California border contributed to increased electric generation costs that added to the costs paid to the qualifying facilities during the last quarter of 2000 and the first quarter of 2001.
